REMEMBER

The National Forests are the great recreation grounds of the Nation. They also contain immense amounts of valuable timber needed for the development of the country.

Damage to the Forests means loss to you as well as to thousands of others.

BE CAREFUL WITH FIRE
DON'T POLLUTE THE STREAMS

The National Forests belong to the people. Don't impair the value of your own property by damaging

LEAVE YOUR CAMP SITE CLEAN

This folder tells you about the recreation features of the Shasta National Forest. The map shows you the roads, trails, and other things you want to know.

DIRECTIONS TO

HUNTERS AND CAMPERS

Additional copies of this map may be obtained free of charge upon applies

Deer, 2 bucks in I year; Rabbits, 15 per day; Tree squirrels, 12 per season; Waterfowl, black sea brant, and ducks, 25 per day, 50 per week (No limit on geese); Mountain quail, 10 per day; Grouse or sage hens, 4 per day; Doves, 20 per day; Trout, 50 fish or 10 pounds and 1 fish, or 1 fish weighing 10 per day.

BAG LIMITS

I to November 30.

It is unlawful to take fish from any lake within 300 feet of the mouth of any stream between November I and August I. (Dates are inclusive).

In this district the open seasons are as follows:

Deer, August 15 to October 31; Rabbits, July 31 to
Pebruary 1; Tree squirrels, September 1 to December
31; Wild ducks and waterfowl, October 15 to Jackbreasted and golden plover, jacksnipe and yellow
legs); Valley and desert quail, October 15 to February 15; Mountain quail, grouse, and sage hen,
September 30; Movember 30; Doves, July 15 to
September 30. (Wood ducks, band-tailed pigeons,
rail, and all migratory insectivorous birds are protected by the Federal law at all times). Trout, May

residence).

From here the Hawkins Creek trail leads to Henderson where is located the Famous Big Bend Hot

one of the finest fishing streams in the State. To see this river at its best and to obtain some fine fishing, one should outfit with saddle and pack animals at miles south of McCloud, and take the Government trail. The river is first reached at the point marked on the map as "Rinckels resort" (a private summer on the map as "Rinckels resort")

Springs.

This lake, which is a mile and a quarter in length, lies on top of the main divide at an elevation of about 7,000 feet in the midst of a lava country extremely interesting for its scenery and geology. Horse feed, spring water, and good trout fishing are abundant. The lake is located in the mule-tail deer country where hunting is excellent. One may return by way of McCloud, or by the wagon road north to Lower Klamath Lake, or to Bray on the Klamath Falls branch of the Southern Pacific. Seven miles southeast of the town of McCloud by automobile road is the beautiful

nual expenditures, will be unnecessary.
Fifty-five miles from McCloud and accessible by automobile is

With your cooperation in preventing and extinguishing forest fires much of this planting work, involving large annual expenditures, will be unnecessary.

A mile from the eaves is the Pilgrim Oreek Nursery, where the Forest Service raises annually over balf a million young trees. These trees are shipped each fall to various parts of the State to be planted on old burns and brush fields. Good accommodations can be obtained, and the Forest officers will be glad to show visitors around. The round trip from glad to show visitors around. The round trip from show visitors around. The round trip from
